

ELECTRONICS MANUFACTURING SERVICES PROVIDER

CORE VALUES

Treat **everyone** as
you want to be

treated.

Invest
be **active**
create value

Deliver on what
we commit to in the
spirit of service

VISION

We are **fueled**
by applying **expertise**
to the right problem.

We are **sustained**
by the **enduring**
partnerships
our work creates.

ControlTek Inc

ControlTek is a business partner who understands your needs.

Electronics Design, Manufacturing and Test Services

Each member of our staff is dedicated to
designing, building, and delivering
quality finished products that meet your
requirements.

Together, we make sure your products
receive the attention and support they
deserve at every stage of their
development.

Service-Disabled Veteran-Owned Small Business

TRUST THE EXPERTS AT CONTROLTEK

When you partner with ControlTek, you gain access to a design engineering team with decades of proven experience.

We strive to understand your needs to provide a custom design solution that perfectly complements your own internal resources.

ELECTRONICS DESIGN SERVICES:

Circuit Design & PCB Layout
(Flex & Rigid Flex PCB Design)

Microcontrollers & Embedded Systems

Sensors & Communications

Control Systems & Power Supplies

Firmware Development

Product Engineering Support

Systems Design

Medical Design

Test System Development

BRING YOUR BIG IDEAS TO LIFE

ControlTek's design capabilities help you meet functional requirements, bring new product ideas to life, or even evolve your products to ensure their continued success.

Our Quality System includes our design and manufacturing processes to ensure we deliver the right final design and you always receive quality products.

BETTER PRODUCTION

ControlTek's contract electronics manufacturing expertise spans the entire product development process. You get to choose how best to partner with us, whether you require a turnkey solution or assistance with a single aspect of production.

CIRCUIT ASSEMBLY

Surface Mount & Through-Hole

Solder Jet Printing

Single & Double-sided PCBs

Fine Pitch Device Processing

BGA and Micro BGA

Quick Turn PCB Prototypes

Large Format & Complex,
Multi-Layer PCBs

INTEGRATION/ASSEMBLY

Custom Box Builds

Electro-Mechanical Assembly

Frame/System Integration

Product & Environmental Testing

CABLE ASSEMBLY

Power & Communication Cables

Wire Kits & Harnesses

RF Coaxial / Triaxial Cables

Ribbon cables

SPECIALITY SERVICES

Epoxy Encapsulation

Conformal Coating

Device Programming

Prototyping & NPI
