

New Product Introduction

We approach manufacturing services with the same energy a start up gives to their product.

Let ControlTek be the manufacturing arm of your business so you can focus on making your product market ready.

At ControlTek, we understand the amount of energy you put into your product. We listen to your goals and develop a customized product realization solution. After all, no one knows your product better than you and nobody knows manufacturing better than ControlTek.

Product Realization Solutions

- Product Development & Design
- Prototype
- Supply Chain Management
- Manufacturing Engineering
- Product & Process Quality
- Product Testing
- Fulfillment

You are the expert in your product. We are your product realization expert.

The Start Up Adventure - Featuring ControlTek and You!

Start Ups face an **enormous task** with limited resources.

As an **expert** in the mountainous terrain of **product realization**, ControlTek lends a hand.

Start Ups leverage ControlTek's **expertise** and **experience** in electronics manufacturing services on their quest to scale the mountain.

Through a cooperative **partnership** and focus on common **goals**, the team reaches the peak!

We understand the transition from design to actual production is a key to success. Our proven design-build method offers superior communication with the customer throughout the process.
